Transition:

- To enter the transition area you must be wearing your helmet securely, be displaying your race number and the stickers in your registration pack must be on your bike and helmet.
- After the race you will need to show your race number and this will be matched to the sticker on your bike and helmet by a marshal
- Please note that only equipment required for the event is to be placed in transition, next to your bike. No boxes or large bags are allowed to be left by athletes' bikes in transition.
- Racking of the bike needs to be by the saddle, so that the majority of the bike faces towards you (front wheel facing you with the kit by the front wheel).
- Transition will be closed 5 minutes prior to the race start. Reopening will be advised by the commentator.
- If this is your first multi-sport race, then it is good practice to familiarise yourself with the ways in and out of the transition area. There will be marshals to help if you are not familiar with setting up arrangements for your bike, helmet, shoes etc...

Aquabike:

- The finish time will stop when the aquabike competitor has dismounted and entered the transition area after their bike leg.
- Competitors are encouraged to rack their bikes and then leave T2 and walk/run across the finish line to complete their event. This transition and run/walk time is not included in their overall race time.
- This enables all competitors to get the same finish line experience and collect their well deserved race medal.

Relay Teams:

- Your timing chip will act as your relay baton.
- Handover of your chip will take place at your teams bike, please note that transition will be live with other athletes racing around you

Race Rules:

- Swim hats are compulsory and will be provided
- British Triathlon rules will apply and penalties will be issued for blatant rule breakers. Please familiarise yourself with the rules on the British Triathlon website – www.britishtriathlon.org
- Be aware of new rules surrounding zips on tri-suit tops in section 2.8
